

Mayer & Cie. training center

Workshop programme

our performance for your profit

Our training courses

As of March 2022

1. Theory of knitted structures

Content:

Basic elements of knitted structures (e.g. LAPIQUE, 3:1 fleece, Interlock and Rib structures) pattern analyses, drawing patterns, calculation of cam parts.

Target:

The trainee will learn how to analyse and draw patterns as well as how to prepare the necessary information for the machine.

2. Technical training

Content:

Principles of machine construction, practical instructions for machine adjustment, e.g. MCT quick change, takedowns, centering cylinder and dial.

Target:

The trainee will learn how to do the basic necessary technical adjustments.

3. MDS 1 (Mayer Design software) training

Content:

Functions of the MDS 1 software, creation of jacquard patterns (and also mechanical stripper patterns), download to the machine and necessary adjustments.

Target:

The trainee will learn how create his own jacquard patterns and data transfer to the machine.

“Expand your know-how in
circular knitting.
Optimise your benefit.
Maximise your profit.”

Benefit from our competence in circular knitting

Mayer & Cie. has manufactured circular knitting machines for more than 115 years. Since 1905, our owner-managed family firm has been based in Albstadt, Germany. There, the market and technology leader's head office and production site are located to this day. It is also where Mayer & Cie. knitting machines are, for the most part, made. About 1,200 knitting machines and many more parts and components leave the Albstadt works every year. Our central administration and research and development department are based there too. In addition to our facilities in Germany, Mayer & Cie. **has subsidiaries in China and the Czech Republic** where we also assemble selected machines.

Mayer & Cie. sells its machines all over the world via an international network of sales representatives. Once in everyday use, you might find your circular knitting machine offers more than meets the eye. Regular seminars held by our experienced staff enable you to make the most of your machines. You can either attend a seminar at Mayer & Cie.'s headquarters or have the trainer come to your site. No matter which option you choose, be sure to benefit from our experience and expertise.

The entire range of Mayer & Cie.'s current seminars is listed in this flyer. For further enquiries or bookings, please refer to the following e-mail address: training@mayercie.com.

Welcome to Albstadt
