

# MDS 1 plus design software for all electronic machines by Mayer & Cie.

our performance for your profit

Mayer & Cie. offers upgrade kits for machines that have been in service at our customers already. Our new MDS 1 plus design software is now available for all Mayer & Cie. jacquard machines - either as an upgrade to the software's previous version MDS 1 or as a feature of a newly ordered Mayer & Cie. machine. The design software is no longer an (optional) part of the scope of delivery when purchasing a Mayer & Cie. electronic circular knitting machine. The software is now provided in a license model.

## The entire range of patterns in one piece

### Your benefits

- ✓ An improved software solution for all Mayer & Cie. Jacquard machines
- ✓ Enhanced cyber security
- ✓ Compatible with other graphics programs
- ✓ Pattern resizing vector
- ✓ Automatic size adaptation
- ✓ Improved user friendliness due to visual facelift, e.g. 2 separate drawing windows for cylinder and dial needle selection and technical simulation in 2D optics

### Available for

- i MDS 1 plus is compatible with all electronic Mayer & Cie. machines.
- i The MDS 1 plus software is sold via a license model (unlike the previous version MDS 1). This make sure you get the latest version of the software.

**PLEASE NOTE:** This requires online registration via a registration code!
