

High Performance upgrade for your OV 3.2/D4-3.2 series

Easy and fail-safe
knitting of structures
(with elastomeric yarns)

our performance for your profit

Mayer & Cie. offers upgrade kits for machines that have been in service at our customers already. Instead of buying a new machine, knitters can adapt or convert their existing machines to meet current requirements.

New yarn guiding technology for easy and flawless knitting

High speed conversion kit for existing OV 3.2 and D4-3.2 machines.

Your benefits

The high speed upgrade is based on a new, updated yarn guide design that keeps all threads in the correct position. In detail, the high speed upgrade features the following benefits:

- ✓ Highest reliability with elastomeric plating e.g. plating on dial and cylinder in double face structures.
- ✓ Increased production due to higher speed.
- ✓ Easy handling for machine operator.
- ✓ More sustainable (fewer rejects) due to constant and high fabric quality.

Available for

- i D4-3.2, D4-3.2 II, OV 3.2 QC, OV 3.2 Qce, OV 3.2

Your Investment

- i 30" 96 Systems EUR 2,900.00
- 32" 102 Systems EUR 3,050.00
- 34" 108 Systems EUR 3,250.00
- 36" 114 Systems EUR 3,400.00
- 38" 122 Systems EUR 3,650.00
