

Rib kit for OV 3.2 and D4-3.2 series

**Fine rib
made faster**

our performance for your profit

Mayer & Cie. offers upgrade kits for machines that have been in service at our customers already. Instead of buying a new machine, knitters can adapt or convert their existing machines to meet current requirements.

Better on Rib structures

Unparalleled output for fine rib structures, made on circular knitting machines that are bestsellers in their own right.

Your benefits

Our rib kit consists of a specially designed dial, adjusted needle, and enhanced yarn guide. This powerful trio lets D4 and OV-3.2 series machines shine even brighter.

- ✓ More performance.
 - ✓ More versatility.
 - ✓ A real challenge to any dedicated rib machine*.
- *Fibre Yarn only
